Introduction

This document describes the services provided, your rights and the photographer's rights.

In a nutshell it says you can use the images as you see fit as long as you don't sell them, and I can use the images for things like portfolio.

The Appendix A gives you information about GDPR, the data we collect and how to contact us about it.

Usage rights

You can use the images and any material provided freely for non commercial use in any way you see fit, for example you can post them on instagram, facebook, and other social media websites.

Although not required it is appreciated if you tag/credit @photo.nuno or www.maternity-photos.com when posting.

I will store, process and publish the images, commercially or otherwise, for any purpose, on any medium, including but not limited to, portfolio, promotion, print, edit the photos or create books.

Retention

Images will usually be stored for a long period, but no warranties are made that they will be stored at all.
